

RESIDENCY

AIR-Vejle is Vejle Printmaking Workshop's residency programme for international fine art printmakers.

Residency: 1 month, 12th of October - 12th of November 2018

Funding: Together with being awarded the residency, the chosen artist is awarded 15,000 Danish kroner (about 2,012 Euros).

The artist provides their own transport, lodging, meals (and other necessities) and materials. Vejle Printmaking Workshop will provide advice concerning inexpensive accommodations, shopping and the purchase of extra materials. Additionally Vejle Printmaking Workshop, if wished, will help with contact to other institutions.

The primary goal of the residency is to give the artist an opportunity for some time to immerse themselves in the artistic process. At the same time there is a focus on networking, dialogue and knowledge exchange.

The application is an Open Call process. The artist is chosen by a jury composed of 2 representatives of Vejle Printmaking Workshop, 1 representative of the Artist Council of the Municipality of Vejle, 1 representative of Vejle Art Museum and the coordinator of AIR-Vejle.

Vejle Printmaking Workshop is a relatively new workshop (established in 2016). It was created with the purpose of establishing and developing technical facilities within the professional graphic art field. The intention is to ensure, that the artists associated with the workshop have the best possible conditions for their creation of graphic art.

AIR-Vejle cooperates with Vejle Art Museum. [Vejle Art Museum](#) is a leader in graphic fine art / works on paper. The museum has a unique graphic art collection of about 20.000 works – the next largest collection of graphic art in Denmark.

By utilizing this cohesion between Vejle Printmaking Workshop, the Artist In Residence program and Vejle Art Museum, Vejle can emerge as one of the most important graphic art cities in Denmark.
